Celebrating Fresh Starts

Isabel Laubscher
Director: Sales
SPORTRON GROUP

Resident Nutritionist
B.Nutrition, MBA, Masters in Phytotherapy
Healthgarde (Pty) Ltd trading as The Sportron Group

DEAR CONSULTANTS,

We have come to the end of an interesting, unusual and character-building year for most, myself included. It has also been a year of blessings, and we need to be grateful for our health, which neither money or time can replace.

The Sportron Group would like to thank everyone for their loyal support and wish you a very blessed festive season.

We are also starting a new year and a new season in life and business. We are so blessed to be part of the Pres Les Group and start a new exciting roller coaster journey as we rejuvenate Sportron and Swissgarde brands together. There will be many new product and innovation launches to look forward to in 2025.

At the end of a year, it becomes a time of personal reflection, and I would love to share some wisdom that spoke to me.

**HAPPY NEW YEAR TO EVERY CONSULTANT
THAT IS PART OF OUR FAMILY OF BRANDS:**

May you look to your past with soft empathy
May you live in the present ever patiently
May you strive for your future so excitedly
May your heart ever find sweet serenity
May your time be so full that regret cannot find
even one ounce of worry or doubt in your mind
To your truest self may you be so aligned,
May you truly achieve your dreams all combined.

Quincy

SPORTRON INTERVIEW

NOVEMBER 2024

SANDHAYA RAGUNATH
DURBAN

How long have you been a Consultant in our business and why is this important for you?

I first joined the business in 2007 as an Assistant in the Swissgarde Durban Office; and was later promoted to Branch Manager. When there was a merger between Swissgarde and Sportron under the Ascendis umbrella, I continued as Centre Manager. I then also registered as a Consultant in order to personally work the business and be able to better support the Consultants.

What does your daily business routine look like; from the time you wake-up in the morning till the end of your business day?

Now that I work from home, I use my phone as my biggest business tool. I message my customers or post on social media to get new business and chat to current consultants.

How do you plan your business month to ensure that it is profitable?

I set a target and push towards achieving it to make a decent living from my rebates. With the current high cost of living, I try my best to steadily grow my sales so that I can support my husband in looking after our family and ensuring that we live comfortably

What do you particularly love about our business (whether product or Compensation Plan) and why?

I love our products that have changed my life and that I can confidently recommend because they do what they say they will do! I also love that my business offers me the opportunity to work with people, meet new people all the time and learn about different cultures and lifestyles.

As you are rebuilding your business, how are you reconnecting with your Consultants and customers?

Social media is my weapon of choice as it allows me to reach many people at the same time via WhatsApp and Facebook, which I use extensively. I also rely on word-of-mouth recommendations that also bring me leads and contacts.

How do you stay motivated and keep your team motivated with business?

I read motivational quotations and share them with my team to keep them positive. I also stay in touch with them so that I can get signals when they are feeling down and keep communication open until they are ok.

What is your short-term growth plan for your business?

To build my team and develop leaders who will earn more money and therefore stay in our business. By doing this, I will be in a better position to personally grow my status to Executive and also earn more money. Also, on my road to recovery, I have found a lot of therapy and joy from animals! For this reason, I would also like to open my own safe haven for unwanted or stray animals.

What would your advice be to Consultants who may be facing personal difficulties and thinking of giving-up their business?

I would say, don't give up, keep pushing and you will overcome and succeed. We all go through storms at some point in our lives, and I have gone through my greatest personal storm ever! What has made a difference for me, has been the belief that however tough the road may be, I can overcome! Every little step forward made me stronger and more determined to overcome. So, whatever the difficulty you are facing, it may seem impossible to get through, but if you believe, you can overcome. It is in your hands!
